

Proposal to Adopt the ARRP Public-Language Controlled-English Profile

ASD-STE100 Issue 9 application and audit implementation proposal

American Restoration and Resilience Project

Review report — July 31, 2026

Status: Proposed for human review; not adopted or active.

Proposal to Adopt the ARRP Public-Language Controlled-English Profile

Decision Snapshot

Problem: Accurate public text is often denser than necessary. | **Repair:** Adopt a precision-preserving controlled-English profile and audit. | **Vehicle:** ARRP profile, terminology register, local auditor, and staged revision program.

Proposal Status

This is a complete proposal for human review. It does not itself adopt a governing rule, change public text, activate a validation gate, assign a permanent governance identity, or authorize repository implementation.
